Group -9 Alaukika Diwanji (014547013) Kanika Khanna (010471669) Nachiket Trivedi (014544933) Samruddhi Landge (014336816)

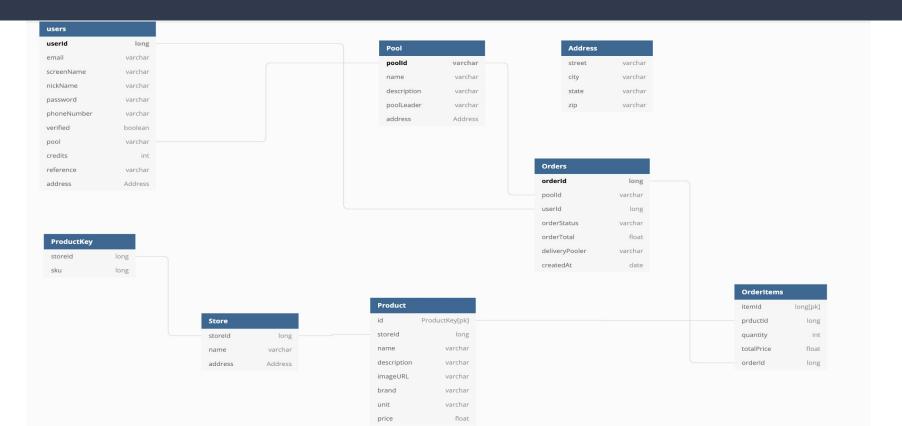

Introduction

- CartShare is shopping pooling system allowing the users to pool their order, which are picked up by a single user. Hence, saving fuel, time, money and also encouraging social distancing in the COVID-19 situation.
- Two main users:
 - 1.) Pooler
 - 2.) Admin
- The main feature of the system is the Pool, wherein the fellow poolers can combine orders.
 These orders are traceable throughout the cycle. Email notifications for all major updates has been enabled.
- The Admin can customise the inventory and stores as need.
